**Oregon FAIR Plan Association**

The Oregon FAIR Plan Association was created by the [Oregon Legislature](#) in 1971 with the mission of making essential property insurance available to responsible applicants in Oregon when they are unable to secure coverage through normal insurance markets. Assure stability in the insurance marketplace and provide for equitable distribution of this responsibility among all authorized insurers. Encourage maximum use of all other normal insurance markets before coming to the Oregon FAIR Plan Association.

While the Plan was created by the legislature, it is not directly part of the State of Oregon and instead is a non-profit association supported entirely by member companies. Every insurance company licensed to write property insurance in Oregon is required to be a member of the Association. All monies belong to the members (profits or losses) and the Plan receives no tax dollars from the state or federal government. The OFPA is entirely supported by the insurance industry.

More information can be found on the [Oregon FAIR Plan website](#).
